Work Report:	A pest control visit has been carried out today to complete the installation of new netting on the under bridge area. Corner and intermediate fixings have been installed over the track area on platform 4 and on the platform side on on platform 3 & 4. Culling was also carried out to help decrease the current level of BIRD activity. 23 birds have been shot during today's cullying. Site has been left clean & all equipment was removed. AGS will continue to monitor.
